mohand.djeziri@lisis.org
tpuleva@tu-sofia.bg
yongli@hnu.edu.cn

Comments TB chair, Dong-il (Dan) Cho:

Due to the late stage of this application, things need to be moved fast.

Please note, however, that co-sponsorship by IFAC does not imply any financial commitment on the side of IFAC.

We are looking forward to receiving from you further material and correspondence pertaining to the subject event and having the IFAC logo and the name of its representative forthwith included in all further announcements.

IFAC has worked with a design firm to develop a new logo as well as establish a set of guidelines that apply to the use of the IFAC logo. This is relevant for a variety of applications, including: www sites, letterhead, books, and social media. One can find the complete **set of guidelines on using the IFAC brand** on our webpage:

<http://www.ifac-control.org/events/ifac-brand-guidelines/view>

Sincerely yours

Kurt Schlacher
IFAC Secretary

We intend to publish the following information in our **Newsletter**:

Title	2018	Place	Further Information
2nd ASET/IFAC/IEEE International Conference on Advanced Systems and Electrical Technologies IC_ASET 2018	March 22 – 25	Hammamet Tunisia	http://aset.ieee.tn/ e-mail: abdessattar.benamor@yahoo.fr
